Nov. 7, 2017

Dear Sorrento Primary Family,

Today, the Louisiana Department of Education released School Performance Scores (SPS) for the 2016-17 year. Sorrento Primary achieved an overall score of 85.2, earning a "B" rating. The following graphic reflects our changes over last year:

## Sorrento Primary School

2016-17 School Performance Score	2015-16 School Performance Score
B 85.2	B 86.4

We are very proud that we have maintained our "B" status as schools transitioned to online testing in grades 5 and above for the first time and despite the adversity our community faced with the 2016 flood. Despite the slight drop in the overall score, our school made positive gains in the percentage of students scoring at the Mastery level and above in ELA by one percent from 2016 to 2017, while science improved by four percent from 2015 to 2017. In addition, the percentage of students scoring at the Mastery level and above in social studies improved by eight percent from 2015 to 2017, while math slightly dipped by one percent.

For more information about the state's scoring system, visit [www.louisianabelieves.com](http://www.louisianabelieves.com) or [www.louisianaschools.com](http://www.louisianaschools.com).

We will celebrate our successes, but the faculty and staff of Sorrento Primary is committed to continuing the hard work necessary to meet the academic, social and emotional needs of **every** child at Sorrento Primary as we pursue excellence!

Kindest Regards,

Robin S. Anderson  
Principal
